“ The program is very different and breaks the monotonous course format we have back in our country. Makes learning fun, interesting, and its more practical compared to theory...in short it's the subject in a nutshell but a powerful effective capsule! A great way to motivate students and to build their confidence. A big time break from the usual life and a great mental booster. It was enthralling. A complete change of lifestyle. It made me more independent and meet different kinds of people and widened my horizon.”
